Dear colleague,

You will know that we had tentatively registered the National Grid Gas Gemini system as an organised market place.

We are now of the opinion that **our Gemini capacity auction system is not an organised market place** because it does not bring together - or facilitate the bringing together - of multiple third party buying and selling interests. National Grid Gas is always a counterparty to the primary capacity trading on the Gemini system and therefore, it cannot be designated as an organised market place under the REMIT regulations.

As such, I would be very grateful if you could remove the National Grid Gas Gemini system from your preliminary list of organised market places.

Kind regards,
