Subject: Public Consultation Paper PC_2015_R_03_RESPONSE

Dear Sirs,

In response to the „REMIT Common Schema for the Disclosure of Inside Information Public Consultation Paper PC_2015_R_03, 27 May 2015” we would like to reply to the suggested questions as follows:

1. Would you add any other field not included in the current proposal? If so, please explain your reasoning.

NO

2. Would you move any field represented in the current proposal? If so, please explain your reasoning.

NO

3. Would you change any of the descriptions, accepted values or applicability? If so, please explain your reasoning. Are the schemas or values that you are suggesting based on any industry standard? Which one(s)?

In paragraph 7/a Affected Asset EIC Code (electricity capacity) codification scheme: EIC W, T or Z is identified as Accepted Values. We would like to make a suggestion that EIC codes type W, T or Z refer to the gas market not to electricity one. Electricity generation units don't have such codes. Therefore we suggest to identify the affected asset (electricity capacity) with balancing area codes or technical codes of generation units assigned by transmission system operator.

Question related to the implementation of web feeds

4. Do you agree with the use of RSS or ATOM feeds to fulfil the requirement under Article 10(1) of the REMIT Implementing Regulation?

YES

Kindest regards,

[REDACTED]
