

Dear Colleagues,

Please find below Consultation questions and brief **Cefic answers**:

Q1: Do you have any concern with respect to the new proposed automatic adjustment rule for PmaxDA and for PmaxID? If so, please explain thoroughly why.

We do not have concern about an dynamic automatic adjustment. ADJUSTMENT MECHANISM SHOULD BE DYNAMIC IN BOTH WAYS, I.E. PMAX COULD BE REVISED DOWNWARD

Q2: Which of the three proposed options for the PmaxDA would have your preference? Please explain thoroughly why.

It is difficult or even impossible to have a preference for one of these option. (no harmonization)

Q3: Do you have any concern with respect to the new proposed implementation date? If so, please explain thoroughly why.

We have no position about the implementation date

We remain at your service and will provide ACER with additional input, if needed.

Best regards,
