Dear Sir or Madam,

Grupa Azoty SA, being the active participant on the Polish as well as European gas market, is interested in booking bundled capacities at the interconnection points between Poland and Germany, as such mechanism is more efficient compared to separate bookings and nominations of unbundled capacities.

Hence, Grupa Azoty SA would like to express its views with regard to the ongoing ACER's proceeding to decide on the single capacity booking platform(-s) to be used at the Polish-German border and the criteria to be use when deciding.

Firstly, we would like to express our disappointment with the BoA's annulment of the previous ACER's decision in this matter. Grupa Azoty SA was hoping that the decision of 16 October 2018 would finally enable gas market participants from the region to fully benefit from the opened gas market in the European Union to the same extent as gas market participants in other EU regions.

As to the questions raised in Annexes 1-4 to the notice of public consultation of 9 April 2019, please find Grupa Azoty SA's answers in the attachment.

Yours faithfully,

[REDACTED]
