

## ACER webinar: amendments to the electricity grid connection network code

Monday, 24 June 2024 | 09:30 - 11:00 CET

Online, MS Teams platform

### AGENDA

Indicative time	Webinar items	
09:15 - 09:30	Webinar open for log-in	Starts promptly at 09:30
09:30 - 09:35	<b>Opening remarks</b> Uroš GABRIJEL, ACER	
09:35 - 09:45	<a href="#">Process for submitting responses to the public consultation and timeline for amendments to the NC HVDC</a> Christian VINKLER, ACER	
09:45 - 10:20	<a href="#">ACER's proposed amendments to the grid connection network code</a> Georgios ANTONOPOULOS, ACER	
10:20 - 10:55	<b>Q&amp;A</b> <b>Moderator:</b> Evangelia VASILAKI, ACER	
10:55 - 11:00	<b>Closing remarks</b> Uroš GABRIJEL, ACER	

## Webinar objective

In the context of [the ongoing revisions of the European grid connection network codes](#), ACER will consult with stakeholders (during summer 2024) to collect views on ACER's concrete amendment proposals to the network code on grid connection requirements for high voltage direct current systems and related power park modules ([NC HVDC](#)).

With this webinar ACER will:

- present ACER's proposed amendments to the grid connection network code;
- provide any necessary clarifications on the purpose, process and timeline for the amendments; and
- inform stakeholders on how they can comment on these amendments through their participation in the public consultation.

ACER invites stakeholders to contribute to its [public consultation](#), running from 17 June until 8 September 2024.

ACER will submit its NC HVDC amendment proposal to the European Commission by the end of 2024.
