

ACER-JRC webinar: ensuring sufficient grid capacity for electricity trade

Wednesday, 10 July 2024 | 14:30 - 15:30 CET

Online, MS Teams platform

AGENDA

Indicative time	Webinar items	
14:15 - 14:30	Webinar open for log-in	Starts promptly at 14:30
14:30 - 14:35	Introductory remarks Christophe GENCE-CREUX, ACER	
14:35 - 14:50	Transmission capacities available for cross-zonal trade of electricity and congestion management in the EU Ignacio MUNIOZGUREN GARCIA, ACER	
14:50 - 15:00	Q&A	
15:00 - 15:15	Future-proofing the European electricity market: redispatch and congestion management Georg THOMASSEN, JRC	
15:15 - 15:25	Q&A	
15:25 - 15:30	Closing remarks Kristine VLAGSMA, JRC	

Webinar objective

ACER and the Joint Research Centre (JRC) are organising a joint webinar to present and discuss the key findings from their 2024 publications, focusing on electricity grid congestion and transmission capacities for electricity trade:

- [ACER's yearly monitoring report on cross-zonal transmission capacities and the progress of Member States in reaching the minimum 70% requirement.](#)
- [JRC's future-looking assessment on the evolution of congestion management in the current EU electricity market design.](#)

In this online event, experts from ACER and the JRC will:

- present the main conclusions of the two publications;
- discuss questions from stakeholders; and
- collect stakeholders' feedback on the reports' findings.

Pre-reading material

- [ACER 2024 Market Monitoring Report on transmission capacities available for cross-zonal trade of electricity and congestion management in the EU.](#)
- [ACER communication](#) on its [Opinion](#) to the European Parliament and Commission on the implementation of the 70% requirement (April 2024).
- [JRC's future-looking assessment on the role of congestion management in the current electricity market design](#) (May 2024).
- [Learn more](#) about why 70% grid capacity target is needed for renewable goals.
