
ACER webinar: Europe's emerging hydrogen market

Tuesday, 3 December 2024 | 10:00 - 11:00 CET

Online, MS Teams platform

AGENDA

Indicative time	Webinar items	
09:50 - 10:00	Webinar open for log-in	Starts promptly at 10:00
10:00 - 10:05	Introductory Remarks Riccardo GALLETTA, ACER	
10:05 - 10:15	2024 Market Monitoring Report: conclusions and recommendations Vasilis PAPANDREOU, ACER	
10:15 - 10:40	Panel discussion Zsuzsanna SZELES, European Commission Carina KRASTEL, EIT InnoEnergy Olivia INFANTES, Moeve Moderator : Csilla BARTOK, ACER	
10:40 - 10:55	Q&A	
10:55 - 11:00	Closing Remarks Riccardo GALLETTA, ACER	

Webinar objective

The European hydrogen market is undergoing rapid development, driven by a combination of ambitious EU-wide strategies and national policies that position hydrogen as a cornerstone of the energy transition. As mandated by the [Hydrogen and Gas Decarbonisation Package](#), ACER initiates its monitoring work on this emerging market by issuing a report that:

- Takes stock of the latest sector developments.
- Sheds light on its main regulatory challenges.

Why should you join the event?

This webinar presents the main conclusions of ACER's 2024 Market Monitoring Report on the European hydrogen markets and discusses how to:

- Increase demand uptake and the role of hydrogen networks as market facilitators.
- Facilitate the deployment of investments in electrolyzers and address the main obstacles hindering their implementation.
- Reduce renewable hydrogen costs.
