Subject: Discussion Paper - Disclosure of inside information according to Article 4(1) of Regulation (EU) No 1227/2011 through platforms

Dear all,

I am sending the below mentioned ERÚ reaction to Discussion Paper - Disclosure of inside information according to Article 4(1) of Regulation (EU) No 1227/2011 through platforms.

There are the existing national platforms of TSOs (ČEPS, a. s., for electricity and Net4Gas, s. r. o., for gas) for a publication of the information in accordance with the Regulations 714/2009 and 715/2009 in the Czech Republic. The Energy Regulatory Office (ERÚ) has discussed a possibility of use the ČEPS's platform for electricity also for purposes of the Regulation REMIT, but we still have several problematic questions (for example a clear definition of dates which has to be published in accordance with the Regulation REMIT; therefore ČEPS does not know the dates which it should collect). ERÚ has not open this type of discussion with Net4Gas yet because a same reason with unclear definition of the dates of dates which has to be published in accordance with the Regulation REMIT. ERÚ does not know about any other appropriate candidate for a creation any new platform on national or regional level in the Czech Republic. ERÚ does not refuse a regional initiative making a platform on regional level only if all costs of creation and management of platform for users and the rules of responsibility for publication of dates will be acceptable.

Kind regards,

Doubravka Plášilová
