
Announcement of a technical roundtable meeting with reporting entities on data reporting under REMIT

Ljubljana, 24 September 2014

Subject: Invitation to participate in the Agency's Technical REMIT implementation roundtable meeting with reporting entities on electronic formats (XML schemas) for the reporting of trade data

In connection with the implementation of Regulation (EU) No 1227/2011 (REMIT), the Agency for Cooperation of Energy Regulators organises roundtable meetings with interested stakeholders on the REMIT implementation. The purpose of the roundtables is to collect the views of, and obtain information from, interested stakeholders and invite attendees to comment on selected questions on data collection under REMIT, in which we believe further consideration would be useful. The first set of roundtable meetings took place in September 2013, after which several rounds of roundtable meetings with different stakeholder groups have taken place.

The next roundtable meeting will take place in Ljubljana on 16 October 2014. This meeting will focus the electronic formats for the reporting of trade data, which will later be included in the first release of the Agency's Transaction Reporting User Manual (TRUM). The meeting will be dedicated to discuss the following XML schemas:

- i) *XML schema for the reporting of standard contracts in accordance with Table 1 of the draft Implementing Acts*
- ii) *XML schema for the reporting of non-standard contracts in accordance with Table 2 of the draft Implementing Acts*
- iii) *XML schema for the reporting of electricity transportation contracts in accordance with Table 3 of the draft Implementing Acts*
- iv) *XML schemas for the reporting of gas transportation contracts in accordance with Table 4 of the draft Implementing Acts*

According to Article 10(3) of the draft Implementing Acts, the Agency shall consult reporting parties before establishing electronic formats for reporting of trade data.

In order to decide on the exact organisation of the roundtable, interested stakeholders are invited to register their interest to participate in the meeting by 6 October 2014 by sending their application to the following mailbox: remit.roundtable@acer.europa.eu. Applications received after this deadline may not be considered.

Further information, including a more detailed agenda and the relevant XML schemas, will be sent to meeting participants in due course.
